About

A resourceful, dependable, responsible, enthusiastic and active team player in a dynamic work environment. Solve and manage complex challenges to deliver high-quality results. High attention to detail and desire to learn. Love elegant interfaces and writing clean code.

Relevant Experience

Math Center Tutor / Green River Community College

2013-09 to 2013-12

- Helped diverse students in math assignment and understanding the basic concept of college-level math.
- Organized group study session and acquire additional necessary knowledge to further mastery of the subject

Front End Developer / Calpoly Undergraduate Research

2018-02 to Present

- Implemented a single page box model simulation to visualize a statistical concept as a joint research project with Professor Dennis L. Sun.
- Programmed the logic for the application with React framework and designed UI which work seamlessly with Professor's custom histogram code.

Note Taker Web Application / Personal Project

2017-09 to 2018-1

- Implemented a static server side web application with node and express, with database and form validation, account creation and responsive UI.
- Deployed the application prototype on free cloud service , Heroku and M Lab

Education

Green River Community College / Computer Engineering

2013 - 09 to 2015 - 06, Auburn WA - Graduated with honors

Pursed a degree outside of my home country. Followed my passion in computer related field. Excelled in the fundamental of programming and object oriented programming.

California Polytechnic State University / Computer Engineering

2015 - 09 to Present, San Luis Obispo (Graduate at 2018 - 06) - Dean list

Focused on dynamic web development and databases, developed strong mastery of functional programming with Javascript. 3.56 GPA
